Official Response to Significant Environmental Points Raised During the Timber Harvesting Plan (THP) Evaluation Process

From the Director of the California Department of Forestry and Fire Protection (CAL FIRE)

THP Number: 1-26-00046-MEN

Submitter: Redwood Forest Operating Company, LLC

County: Mendocino

End of Public Comment Period: Jun 29, 2026

Date of Official Response/Date of Approval: July 20, 2026

The California Department of Forestry and Fire Protection (CAL FIRE) serves as the lead agency, among an interdisciplinary review team of specialists from other governmental agencies, in the review of Timber Harvesting Plans (THPs) to ensure compliance with environmental statutes and regulations. As a part of this review process, CAL FIRE accepts and responds to public comments. This document is the Director's response to significant environmental points raised during the evaluation of the above-referenced THP. Remarks concerning the validity of the review process for timber operations, questions of law, or topics and concerns so remote or speculative that they could not be reasonably assessed or related to the outcome of a timber harvesting operation, will not be addressed.

THP Review Process

The laws that govern the THP review process are found in the Forest Practice Act, which is contained in the Public Resources Code (PRC) and in the rules of the Board of Forestry and Fire Protection (the Forest Practice Rules) which are contained in the California Code of Regulations (CCR).

The Forest Practice Rules are specific in scope and detail and provide explicit instructions for permissible and prohibited actions that govern the conduct of timber operations in the field. The major categories covered by the rules include:

- THP contents and the THP review process
- Silvicultural methods
- Harvesting practices and erosion control
- Site preparation
- Watercourse and lake protection
